The top range OKIMAT for real high-end applications

Maximum power, maximum speed, maximum options.

for motorized high-end bed systems

- up to 2 additional actuators
- vibra massage
- integrated bidirectional RF-technology (2.4 GHz)
- integrated and external floor light
- Synchro function
- Memory function
- Soft start / soft stop

Features

- Low power consumption, less than 0.5 W during stand-by,
- complies to the Ecodesign Directive 2009/125/EG
- Low electromagnetic fields
- Reduced annual energy costs
- Lower weight
- Appliance class II
- Microprocessor controlled
- Emergency lowering via 9 V battery

Performance

- Load capacity 4500 N optional 6000 N
- Increased and constant adjustment speed: max. 5.8 mm/sec.
- Voltage stabilized at 29 V DC
- Power rating 58 W nominal / 116 W peak
- Duty cycle 2/18 min. or 10 %,
- max. 5 switching cycles per minute
- Primary voltage range 230-240 V
