#### **DEWERTOKIN TECHNOLOGY GROUP**

DewertOkin Technology Group Ltd. is a subsidiary of Phoenix Meccano Group in Switzerland. Its two brands, Dewert and OKIN, are originated in North Rhine-Westphalia, Germany, counting over 40 years of history. With 5 production bases in Asia-Pacific and Europe, and a total of nearly 3,000 employees, DewertOkin provides integrated hardware and software solutions for Smart Home, Smart Healthcare, Smart Office and other scenarios.

- Smart Manufacturing
- Production Real-time Traceability
- Global Supply Chain
- Fast Delivery Guarantee

#### **ONE-STOP SOLUTION FOR SMART FURNITURE**

Under the brand OKIN you can find a wide range of products for smart furniture (such as motion upholstery, massage chairs, theatre seating, recliners and adjustable beds) and adjustable office desk and chair systems. Whereas the brand Dewert offers high performance products for medical applications (such as medical and nursing beds).

The first in the industry to propose a One-stop Smart Solution concept, our company serves over 1/5 of the world's smart furniture manufacturers and is the preferred supplier of many world-class brands. With a presence in over 28 countries and regions around the world, DewertOkin is a true industry leader.

Over 40 years focusing on the development and innovation of One-stop Smart Solutions. 5 innovative R&D centers around the world with post-doctoral workstations as the core. Over 1,500 patents, including more than 900 patents for inventions.

- Sustainability has always been a priority for DewertOkin. In keeping with our dedication and ongoing efforts to have green factories and products while fostering a healthier and greener working environment, our Industrial Park complies with the requirements of ISO 45001, ISO 14001, and ISO 50001 certifications.
- All DewertOkin products, as well as their components, meet the European requirements for registration and prevention of chemical substances such as REACH and RoHS.
- Our product solutions are certified in accordance with DIN EN ISO 9001:2015 and the CB test report.
- Approved by authoritative certification institutions.

#### **Business Solutions**

#### **Reliable Technology for Adjustable Beds**

Electrically adjustable beds ensure outstanding comfort in everyday life and turn your own bedroom into an oasis of well-being. The key features for this type of bed are the smooth changes in position and the excellent user-friendliness. This is achieved by taking advantage of the intelligent components provided by OKIN. OKIN is the world's leading supplier of drive technology for motorized adjustable beds. The OKIN brand encompasses a broad portfolio for users – with products that can be used for mid-range and high-end applications.

#### **Comfort Beds**

A modern, stylish design is combined with optimum sleeping comfort and individually adjustable movement profiles. End users benefit from the gentle adjustments of the sleeping, reading or sitting positions and extras such as an optional relaxing massage function, practical floor lighting and convenient operations via smartphone app.

#### **Box Spring Beds**

A comfortable mattress and relaxing environment are important, but the technology integrated into a box spring bed is also essential for ergonomic positioning and reliable functionality. Drives for box spring beds should be particularly powerful.

Our single and double drives with a high pushing force move the foot and head sections smoothly and quietly. In addition, our intelligent control units and elegant handsets allow you to create individual movement profiles.

4 I OKIN OKIN I 5

# **DOUBLE DRIVES**

The OKIMAT is a powerful, stable, low-maintenance and sustainable double drive for comfort beds/box spring beds. Users benefit from the fast adjustment speed, the low-noise setting and the convenient operating functionality. Thanks to its high pushing force this drive is ideal for heavy comfort beds and box spring beds.

Input	100-240 V/AC	
Min. Installation Size	581mm	
Stroke	69mm, 74mm, 87mm	
Load capacity	2 x 6000N	
Power	Switch Mode Power Supply (SMPS)  - Emergency lowering function  - External control unit for RF/BT/Memo and underbed light	
Optionals		

#### **OKIMAT 4**

OKIN RF handsets stand out in particular for their elegant design: the screwless housing is appealing and flat, ensuring an optimal handling at all times. Thanks to their responsive buttons and high value housing surfaces, the handsets are ideal for bedding applications. Equipped with the OKIN bi-directional 2.4 GHz radio control, the input of commands is always accurate and reliable.

Optionals: Flashlight, UBL, Child safety lock, Pair button, Massage

#### **Wired Handsets**

Tried and tested easy-to-use handsets with a wired connection. OKIN wired handsets have a robust housing and are designed for high reliability and precise inputs. Equipped with a reset function, the ForelinePro and Topline handsets can be used for controlling both movements at the same time. Furthermore, both handsets are equipped with a hook on the back side. In addition, the ForelinePro has an integrated flashlight.

# **CONTROL UNITS**

# For Box-Spring Beds or Slatted Frames

OKIN RF receivers have a bi-directional 2.4 GHz technology which is completely interference-free. The compact design of our receiver units enables them to be used in space-critical products directly tacked on the OKIMAT 4. This is perfect for electrically adjustable bed systems that have very low construction heights.

# OKIN BED MECHANISM

# **High Quality Integrated Actuator System**

The mechanism is ideal for bedding applications with 1-motor systems or 2-motor systems. It is suitable for all standard box spring beds and continental beds. Thanks to separated mechanisms for the head and foot section adjustment as well as a particularly low installation height, the mechanism offers maximum flexibility in the design of motor-driven box spring beds. The complete system is suitable for all common bed widths and lengths. A convenient emergency lowering function via remote control provides additional safety. The OKIN Bed Mechanism is also compatible with a wide range of OKIN control units and remotes and is characterized by particularly simple assembly.

22 | OKIN

Operate your electrically adjustable premium bed with your smartphone or tablet. The app FurniMove was designed to work in perfect sync with your applications. OKIN offers standard IOS and Android Apps for your individual requirements that are easy to install and use.

App Store

Google Play

#### Invisible Aesthetics

**Bluetooth Speaker** 

Ultra-slim design, can be perfectly hidden under the bed, delivering sound right by your pillow. Ideal even for space-limited foldable beds.

#### Powerful Sound Field

Dual 20W stereo speakers with professional audio units, offering powerful sound in a small package—rich bass and clear highs.

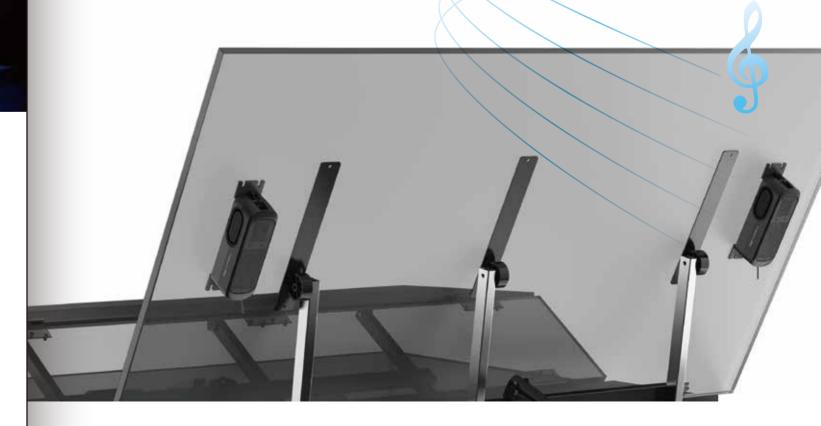

#### Smart Control Convenience

Instant Bluetooth® connection to smartphones or TVs, transforming your bedroom into a private cinema in seconds, perfect for entertainment and promoting better sleep.

#### Safety and Durability

Low-voltage DC power supply ensures safety and reliability, providing long-lasting performance.
